

## PRECEPTOR BENEFITS

The Office of Experiential Programs (OEP) uses CORE ELMS for scheduling and evaluations of rotations, student requirements, and all necessary documentation for IPPE/APPE rotations. Click on *Document Library* for information on how to use the CORE ELMS system.

### Library Resource Access

Active preceptors have access to pharmacy databases available through the school's library.

- Log in to your CORE Elms account
- Click on External Resources > Library Resource Guide
- Apply username and password

### CU in the Morning PharmaCE

This provides a variety of programs offered on-demand, including a few live sessions to network with other pharmacists. These are great opportunities for preceptors to earn CE credit. Details will be communicated via the Message Center in CORE Elms.

### CEImpact

CEI's preceptor bucket includes a series of online interactive educational activities that meet ACPE standards for education and professional development of preceptors. Cedarville University School of Pharmacy offers free access to these quality CE programs. Click on External Resources> CEImpact in CORE Elms to use your access code (25CVILLE) to register.

### Job Postings

Submit your technician, intern, or professional job vacancies using the Job Board in CORE Elms and the OEP will post these for students and alumni to view.
